CUMMINS® ISB COMMON RAIL INJECTOR

Cummins® Common Rail Injectors

We are offering remanufactured common rail injectors for Cummins® 5.9 and 6.7 Liter engines used in Dodge® diesel vehicles. Five part numbers cover applications from 2003 to 2013. This offering includes the newer model trim coded injectors. These injectors go through our thorough remanufacturing process that ensure optimum quality and reliability.

- Each disassembled injector is processed keeping all components together to minimize part fit variation and maintain original performance
- After cleaning, all injector clearances are measured with precision air gauges to confirm and prevent any fuel leakage passing the critical high-pressure components
- All air gauge data measurements are retained and stored by serial numbers and date
- After assembly, all injectors are 100% tested and data is recorded for critical engine application checkpoints, to assure a quality product

Description	Model Year	OE #	Reference #
Dodge 5.9L	2003 - 2004	0 455 120 210 0 445 120 018 0 445 120 113 0 445 120 255	0 986 435 503
