GM® 6.6L DURAMAX COMMON RAIL INJECTORS

Duramax Common Rail Injectors

DPA Inc. is offering remanufactured common rail injectors for GM® Duramax 6.6 Liter engines used in Chevrolet® and GMC® diesel vehicles. Four part numbers cover applications from 2001 to 2010. This offering includes trim coded injectors for the LBZ and LMM engine applications. These injectors go through our thorough remanufacturing process that ensure optimum quality and reliability.

- Each disassembled injector is processed keeping all components together to minimize part fit variation and maintain original performance
- After cleaning, all injector clearances are measured with precision air gauges to confirm and prevent any fuel leakage passing the critical high-pressure components
- All air gauge data measurements are retained and stored by serial numbers and date
- After assembly, all injectors are 100% tested and data is recorded for critical engine application checkpoints, to assure a quality product

Description	Model Year	OE #	Reference #
GM LB7 6.6L	2001 - 2004	0 455 120 008	0 986 435 502
GM LLY 6.6L	2004.5 - 2005	0 445 120 027	0 986 435 504
GM LBZ 6.6L	2006 - 2007	0 445 120 042	0 986 435 521
GM LMM 6.6L	2007.5 - 2010	0 445 120 082	0 986 435 520
